Forecast for Monday 27 Jun 2022

Weather: Bright spells developing with some sunshine. Also scattered showers but these will be mainly light and move through quite quickly. Showers dying out in the early evening with some late sunshine. Clouding over later in the evening.

Chance of cloud-free hill tops above 800m: 80% most cloud above the summits but perhaps some patches shrouding the tops.

Low cloud and visibility: Scattered low cloud around 700m, mostly clearing with just patches near showers later in the day. Visibility will be good but will dip moderate at times in showers.

Met Office Aberdeen Meteorologist's View
Although quite showery there will be some brightness around and less windy than the weekend.

Forecast for Tuesday 28 Jun 2022
Weather: Dry but cloudy overnight, some showery rain spreading across western ranges by morning. Outbreaks of rain and strong southerly winds are likely for most places, hills further north towards Speyside and perhaps the Northern Cairngorms may remain dry or at least have some breaks in the rain during the day. The wettest areas will be those exposed to the southerly flow down towards Loch Ossian and Ben Alder.

Maximum wind: Southerly 25-30mph with gusts 40-45mph

Chance of cloud-free hill tops above 800m: 60%, low cloud will be most prevalent in the south with some more northern tops seeing very little cloud.

Low cloud and visibility: Broken cloud above 600m is likely for the Perthshire hills towards Loch Rannoch, further north and east towards the Lecht and Speyside will only see patches of lower cloud around 700m. Visibility will be poor in rain which may be heavy anywhere exposed to the south but will mainly be light further north and east and visibility will be moderate or good here.

Temperature: **Glens:** Plus 12 rising to 16 Celsius, perhaps reaching 18 or 19 Celsius for Moray and Speyside.
At 800m: Plus 4 rising to 9 Celsius.
Freezing level: Above all summits.
